

## How to easily know your finger size?

Here is our measurement guide:

### Step 1

Calibrate your guide

- Before printing, make sure your print settings are set to "None".
- Once printed, calibrate the form by checking that both scales are measuring correctly: the credit card scale must match a regular credit card and the ruler must be 50 mm or 2 inches in length.

### DO & DO NOT DO

- Measure your fingers at the end of the day when they are at their maximum width.
- Do not measure the size of your ring when your hands are cold.
- **WARNING! It is important in both cases to compare with a ring for the same finger and the same hand.**

### Step 2

Find your size

Once printed, find a ring that fits comfortably on the finger of your new ring and has a shape and style similar to those you want to buy.

Place your ring on the circles until the inside of your ring aligns with the edge of the circle. If your ring is between two sizes, order the largest size.

## Other measurement method

To know exactly your finger size: Measure with a ruler, the diameter of your ring and refer to the table below to have your finger size.

Size French FR	Diameter (mm)	Size Italy, Spain, Switzerland, Netherlands	Size USA US	Size French FR	Diameter (mm)	Size Italy, Spain, Switzerland, Netherlands	Size USA US	Size French FR	Diameter (mm)	Size Italy, Spain, Switzerland, Netherlands	Size USA US
